October 8, 2001

Dear Sirs:

Due to the terrorism threats I must object strongly to the Yucca Mountain Storage Project. To transport nuclear waste via any mode of transportation within the USA would, in my opinion, show true disregard for public safety. Illegal Hazmats have already been confiscated and in my opinion they were to be used for only one purpose - some type of terrorism. There are now guards around nuclear facilities nationwide. I sincerely doubt that we will ever get to the point that terrorism will not exist in some form in the USA ever again,

①

even if it is from within, i.e., the Oklahoma incident. I therefore cannot understand how we as a nation can even think seriously about transporting nuclear waste safely.

Sincerely,

Eileen McKyton
